

PAVANI NAGA PRIYA GALI

+91 9110382581 | pavaninagapriya75@gmail.com | Vijayawada, India

PROFESSIONAL SUMMARY

Results-driven Software Engineer with 2+ years of experience in full-stack development using Flutter, Node.js, SQL, and Redis. Experienced in building secure authentication systems, scalable APIs, and cross-platform applications. Proven ability to improve performance and deliver efficient software solutions.

EXPERIENCE

Junior Software Engineer

Astragen India Pvt. Ltd.

May 2024 – Present

Vijayawada, India

- Developed and maintained cross-platform Flutter applications for Web and Mobile platforms
- Engineered secure authentication and session management using Node.js, AWS Cognito, and Redis
- Designed and integrated RESTful APIs for seamless frontend-backend communication
- Optimized backend logic, significantly reducing API response times.

Software Developer Intern

Astragen India Pvt. Ltd.

June 2023 – Apr 2024

Vijayawada, India

- Built Flutter-based frontend features for web and Mobile applications
- Supported backend API integration, testing, and authentication workflow development
- Gained hands-on experience with REST APIs, database operations, and production debugging

PROJECTS

Authentication & Identity Platform | Node.js, AWS Cognito, Redis, Flutter

1st Company Project

- Designed and implemented an OAuth 2.0-based authentication system using Node.js and AWS Cognito, enhancing security and enabling scalable token-based session management
- Implemented Redis caching for faster session validation and built a cross-platform Flutter frontend

AstraPlus | Flutter, Node.js, MySQL, API Integration

End-User App

- Developed and optimized premium school management modules improving workflow efficiency and user experience
- Implemented backend integrations and real-time UI features across student and staff workflows

AstraOne | Flutter (Web & Mobile), Node.js, REST APIs

End-User App

- Developed core modules and integrated REST APIs for student, staff, and parent workflows

Astragen Dashboard | Flutter, Node.js, MySQL, Role-based Access

In-House App

- Built internal admin dashboard modules with role-based UI for operational data management
- Developed backend logic for reporting and data workflows

Livestock Management System | Flutter, MongoDB, IoT

B.Tech Final Year Project

- IoT-based platform to monitor cattle health metrics in real-time with cloud-based anomaly detection

EDUCATION

Dhanekula Institute of Engineering and Technology

B.Tech in Computer Science And Engineering

Vijayawada, India

2020 – 2024

- CGPA: 8.21

TECHNICAL SKILLS

Languages: JavaScript, Python

Frontend: Flutter

Backend: Node.js, REST APIs

Databases and Caching: MySQL, Redis

Cloud : AWS Cognito

CS Concepts: DBMS, OS, Computer Networks

CERTIFICATIONS

HackerRank – SQL Basic Certification | Cisco – Python | IIT Bombay Spoken Tutorial – Python

EXTRACURRICULAR ACTIVITIES

NSS Volunteer | Freshers Day Organizer | College Fest Coordinator
