PROFESSIONAL SUMMARY

Full Stack Software Engineer with 2+ years of experience building **REST APIs in Node.js**, writing **SQL queries** and designing **MySQL schemas**, and developing cross-platform **Flutter** applications for Web and Mobile. Played a major role in the company's **authentication platform** built on **AWS Cognito** and **Redis**. Building foundational AWS skills (**S3**, **Lambda**) through the AWS Academy Cloud Virtual Internship and a personal portfolio deployed on S3 with **GitHub Actions**. Cisco-certified in Python.

TECHNICAL SKILLS

Languages: JavaScript (Node.js), Python, SQL, Dart

Backend: Node.js, REST APIs, API Integration, OAuth 2.0, Token-based Authentication

Databases & Caching: MySQL (queries, schema design), Redis, MongoDB

Cloud & DevOps: AWS Cognito, AWS S3 (basic), AWS Lambda (basic), GitHub Actions, Git

Frontend: Flutter (Web & Mobile), HTML, CSS

Testing & Fundamentals: Dev-environment testing, API testing, Debugging, DBMS, OS, Computer Networks

EXPERIENCE

Junior Software Engineer

May 2024 – Present

Astragen India Pvt. Ltd.

Vijayawada, India

- Develop backend **REST APIs in Node.js** for school-management products used by students, staff and parents.
- Write and optimise **SQL queries** and design **MySQL database schemas** for new modules, reducing API response times.
- Played a major role in building secure authentication and session management with **AWS Cognito**, Node.js and **Redis**.
- Build cross-platform **Flutter** features for Web and Mobile and integrate them with backend APIs.
- Test features end to end in the **development environment**, debug issues and verify fixes before release.

Software Developer Intern

June 2023 – Apr 2024

Astragen India Pvt. Ltd.

Vijayawada, India

- Built Flutter frontend features for web and mobile applications.
- Supported backend API integration, testing and authentication workflow development.
- Gained hands-on experience with REST APIs, database operations and production debugging.

PROJECTS

Authentication & Identity Platform | Node.js, AWS Cognito, Redis, Flutter

1st Company Project

- Major contributor to an **OAuth 2.0**-based authentication system using Node.js and **AWS Cognito**, enabling secure, scalable token-based session management.
- Implemented **Redis** caching for faster session validation and built the cross-platform Flutter frontend.

AWS Portfolio with CI/CD | Amazon S3, GitHub Actions, HTML/CSS/JS

Live | Personal Project

- Built and deployed a personal portfolio website on **Amazon S3** static hosting, with a **GitHub Actions** pipeline that deploys automatically on every push to **main**.

AstraPlus & AstraOne | Flutter, Node.js, MySQL, REST APIs

End-User Apps

- Developed school-management modules and REST API integrations for student, staff and parent workflows on Web and Mobile.

Astragen Dashboard | Flutter, Node.js, MySQL, Role-based Access

In-House App

- Built internal admin dashboard modules with role-based UI, plus backend logic for reporting and data workflows.

Livestock Management System | Flutter, MongoDB, IoT

B.Tech Final Year Project

- IoT-based platform to monitor cattle health metrics in real time with cloud-based anomaly detection.

EDUCATION

Dhanekula Institute of Engineering and Technology

Vijayawada, India

B.Tech in Computer Science and Engineering — CGPA: 8.21

2020 – 2024

CERTIFICATIONS

AWS Academy Graduate – Cloud Virtual Internship (AICTE–EduSkills) | **Python Programming** – Cisco Networking Academy
SQL (Basic) – HackerRank | Python – IIT Bombay Spoken Tutorial

EXTRACURRICULAR ACTIVITIES

NSS Volunteer | Freshers Day Organizer | College Fest Coordinator
